KELVAN GROUP INC.

Telecom Tower Contractor

CAPABILITY STATEMENT

1981 Ambassador St, Philadelphia, PA 19115

CORE COMPETENCIES

- Tower erection — monopole, self-support lattice & guyed; section replacement
- Antenna & equipment installation — 4G/5G mods, RRU and antenna swaps, feedlines, sweep/PIM & RET testing
- Tower & equipment decommissioning, foundations & concrete, compound build-out & fencing
- Tower inspection & maintenance; 24/7 storm & emergency restoration
- Subcontract crews for turf vendors, GCs and tower owners — your SOW, MOP and paperwork

DIFFERENTIATORS

- Est. 2019 · 1,000+ sites · 10+ years in telecom; experience on AT&T, T-Mobile and Verizon sites
- OSHA-30/10, climber & rescue (Z359), riggers (A10.48), RF, CPR — up to 20 certs per senior tech
- Site-specific JSA, rescue plan and written safety program on every job
- Photo-documented closeout package and as-builts on every completed site
- Licensed & insured nationwide; COI with additional insured & waiver of subrogation on request

PAST PERFORMANCE (MARYLAND, 2024-25)

- Monopole — full sector swap: all antennas/RRUs, OVPs, new trunk cabling, old equipment removed, sweep/PIM + RET, photo closeout
- Silo-mount stealth site — full sector swap, ~3 weeks on site
- Self-support lattice — full sector swap, same closeout package

INSURANCE ON FILE

- General Liability — $1M per occurrence / $2M aggregate
- $10M umbrella / excess liability
- Workers' compensation — statutory limits, $1M employer's liability
- Commercial auto liability
